SCALPEL™

Surgical Camp for Advanced Learning, Practice, Excellence and Leadership

SCALPEL™

3-4 August 2019 | Bengaluru, India

Have you registered yet for the first edition of SCALPEL™ on Coronary Anastomosis? This is the first initiative dedicated to fostering skills requisite for formidable coronary surgery?

This year, the camp will focus on training in competent suturing of blood vessels. With a prestigious faculty, the basics will be emphasised. The programme will include didactic and exclusive hands-on only experience for young residents. The techniques of anastomosis from the different schools will be illustrated in detail and confronted to generate an exciting day of intellectual feasting and fruitful training.

- ▶ Surgical anatomy of the heart
- ▶ Coronary anatomy
- ▶ Handling & selection of sutures
- ▶ Basics of Anastomosis
- ▶ Instrumentation
- ▶ Good Suturing Habits
- ▶ Anastomosis of small vasculature vessels
- ▶ Anastomosis of large vasculature vessels
- ▶ Sequential anastomosis

Eligibility: This program is open for students in 2nd/3rd year MCh & 3rd/4th year DNB (6 years course).

Karnataka Medical Council has awarded 4 Credit CME points.

REGISTRATION IS FREE, BUT MANDATORY. LOUPES ARE COMPULSORY.
